Two students this week took part in an attempt to relieve the American Embassy of its prize crest. The original intention of the students was not to take the crest but the bust of George Washington. However, the crest fell from the wall before the bust could be reached.

Unfortunately the students were apprehended before they could abscond with the It is understood that sev. possession. The results of the escapade were perhaps of greater consequence than the event itself.

The American Embassy saw fit not to charge the students and contented themselves with delivering a lecture to the students on the wrongs of thieving. The police were called in only to help catch the second student. The Similar visits were made action of the Embassy showed great tolerance in 1963 and 1964 by British on behalf of the authorities, but perhaps it was to their own disadvantage.

The stunt has been reported as being publicity for Bush Week at the end of the term, but it is rumoured that the idea behind the stunt was to prove that Embassies are fair jobs ranging from positions game for Bush Week. Much has been said about the Union. It is true that student apathy is robbing them of any chances to improve it. But you cannot help wondering why the Union is there at all. It certainly does not seem to exist purely for the advantage of students.

We almost seem to have gotten the Union from the Uni. authorities purely to satisfy student demands for a Union. The attitude seems to have been "Bung it up and Keep them Quiet." They have done this, and kept us quiet. The Union we have now is a substantial improvement on no Union at all and certainly fulfils a need and provides a gathering place for students.

But is this enough? There are some sceptics who think that the Union was only erected to provide Burton Hall with a dining room. Little thought for student needs was taken into account when building, and the architect appears to have little idea of University Unions.

The Union is plainly overcrowded, but this situation will ease when Burton moves out. But students want to do more than just eat and talk in the Union. Little thought has been taken in the arrangement of rooms. Rooms that do exist are either too small, or hopelessly designed. Take the Clubs and Societies room as a good example. Meals that do exist are still far too expensive. Union facilities for coffee, etc., cease to function on the weekends, despite the fact that the S.G.S. Library is now extending its hours and is open Sunday. The Uni. does not close on Friday evening.

Shower and locker facilities are either ill-provided for or non-existent. Students cannot buy any essentials for study at the Union and those that are available are the same price as the ordinary shops. Perhaps the new Bookshop will provide these things and at a much cheaper cost?

Some of the staff seem unaware that the Union is there for students. One of the staff when seeing a student take one extra biscuit asked him how he expected the Union to make a profit. Is this a Union that exists for students, when it wants to make a profit?

It must be admitted that students.

do not treat the Union as-if it were their own, and seem content to make as much mess as possible, and to rob the Union at every possible opportunity; thereby wiping out some of the money that might have gone to securing student facilities. An enquiry is being held by the Union to see what changes the students want. If you want a better Union, tell them.

THE DROUGHT AND THE FUTURE

The recent drought emphasises the necessity for increasing the base of Australia's economy. The government should realise that it takes only one drought or bad season to throw Australia's overseas balance of payments haywire. To have the entire country dependent on one industry, and one which is susceptible to fluctuations, makes for stability in the country.

While conceding that wool is our only really big industry, surely the govment should attempt to widen the base of the economy, to prevent such occurences as the drought having a drastic effect.

The pressing need in Australia is for an export commodity to rival the wool

Action now by the government may forestall possible future economic slumps caused by natural calamities like the drought.

free training on full salary in automatic data processing

The Commonwealth Service has introduced a new scheme to prepare young men and women for a rewarding, challenging future in Automatic Data Processing. The scheme provides twelve months' free training on full salary in the principles of ADP programming and systems analysis as well as practical experience in computer techniques.

Large computer-based systems have been or are being installed by a number of departments in Canberra, Sydney and Melbourne -some with satellite units in other State capital cities. Fields of work are diverse - personnel, finance, economic and social statistics, stores supply, telephone billing, benefit payments, weather forecasting, management planning and control, defence service logistics.

Training courses will be conducted in Canberra and Melbourne. Placement after training may be in such departments as Air, Census and Statistics, Defence, Health, Meteorology, Navy, Postmaster-General's, Social Services, Superannuation Board, Supply, Taxation, Treasury, Repatriation or Civil Aviation.

SALARY: Within the range £1482-£1848 for men and £1281; £1647 for women according to qualifications and experience. Minimum commencing salary for an honours graduate is £1543 for men and £1342 for women.

PROMOTION: Advancement as Assistant Programmer, £1848-£2092 (£1647-£1891 for women) is automatic on successful com-pletion of the year's training course. There are excellent opportunities for subsequent promotion on merit to higher

QUALIFICATIONS: University degree or appropriate technical college diploma desirable. Aptitude for programming and ADP work which will be measured by special tests. In some fields there is scope for direct application of disciplines such as mathematics, statistics or accountancy.

AOSTS

This department of the National Union of Australian University Students gives ALL STUDENTS and graduates of up to two years standing an opportunity to spend their summer vacation travelling and experiencing life in an Asian country. The aim of AOSTS is to foster international understanding through

The AOSTS Programme has operated as a Student Exchange System for the past few years to INDIA, JAPAN and the PHILIPPINES. This year it is intended to send about 120, 60 and 15 students to these countries respectively. AOSTS

in 1965/66 will also be sending groups to Malaysia, Indonesia and Hong Kong. Within the country visited, flexible arrangements based on a sequence of Family Stays, Free Travel and optional participation in a Community Aid Workcamp allow the student to follow specific interests and travel freely according to his own plans and inspirations.

Trips leave late in December and return in the first days of March. The Japan trip can be extended one month and India participants fly back at a time suitable to themselves.

What is the all-inclusive cost for such a 2-3 month trip? A very liberal estimate for India and Japan (the longer trip) would be £300 to £350. The major cost of course is the return fare; internal travel and accommodation charges involve little expense. Applications for the New Zealand Exchange Scheme will be called for later in the year. Costs £54 air return.

Intending applicants can obtain further information about all aspects of AOSTS from: G. H. Blomfield, telephone 48602 or S.R.C. Office

Large generalisations such as this are seductively easy to make, and it is becoming more and more fashionable to make them. What Faulkner's attitude to the matter was is perhaps irrelevant.

The similarities, however, do exist, and this in itself is interesting.

The important thing is that Faulkner was writing a literary context which 'Cooper helped to establish; and that the issueswith which he was concernare not peculiar to southern society but are part of the texture of American life as a whole, central and abiding problems to which abiding problems to which seem not only blatantly pro- out. The concluding scene, in which Rose of Sharon, the mother of a still-born child, offers her breast to a starving man, was obviously intended to suggest that "the people" will somehow prevail: society may break down, the family may disintegrate; but the human race, both as a biological social phenomenon, will sur-

He simply has the urge to move. And it is when the the same time cares "about circular flight that begins are on the road that everything in principle." and ends nowhere: a mad they are happiest.

The road, indeed, is their wilderness: they have left they have not yet reached another. The old laws longer apply: movement becomes an end in itself.

California, instead of being the promised land, is a hell of Hooverville shanty towns, strikes, starvation floods.

Industrial society, inefficient, impersonal, brutal, begins to destroy them; and despite the heroic efforts of Ma Joad the family, the smallest but most vital and organic unit, begins to collapse.

Tom kills a strike-breaker and is forced into hiding.

The family betrays him unintentionally, of course when the children talk. And in this betrayal we see the ultimate failure of the individual by society.

Society fails Tom Joad just as it failed Leatherstocking; and when Tom says goodbye to his mother he too stands on the frontier of a wilder ness: a far more savage one than that which Natty Bumppo travelled through, and the Marxist utopia which Tom is about to seek seems more remote and impossible of attainment than Natty's woodland . CHAIRMAN'S LETTER

UNION CELLAR

At the last meeting of the Union Board it was decided to approve in principle the establishment of a "Cellar" in the Union. This arrangement is to enable coffee and light refreshment service to continue after actual Union Building is closed. It is at present envisaged that the Union will

close at 11.00 p.m. and the "Cellar" will go on until 1.00 a.m. or perhaps later until 2.00 or 3.00 in the morning.

The area which it is hoped will permanent-become "the Cellar" is at, present, unexcavated. It is situated on the lower ground floor next to the Games Room. There will be a door leading into the area from the Games Room so that the Games Room also will be in operation at the same time as the "Cellar," but the rest of the building will be locked.

The University was approached to appoint an architect and to prepare sketch plans and cost estimates as urgently as possible so that this service can commence in permanent headquarters as soon as possible.

The cost of the project is estimated at between four and six thousand pounds, and this money shall come from the Union Capital Fund which is made up of the £3 entrance fees to the Union paid by every student.

The S.R.C. also discussed the question of a Union Cellar at its last meeting and decided to grant a sum of £500 towards the project.

There is only one problem at present which may delay the construction of the "Cellar." The Union Building is a University building and so all structural alterations must be passed by the University Administration. (A.N.U. Buildings and Grounds Committee is the particular Council Committee to review the proposals). This may be a delaying factor but only the future can tell this.

In the meantime, the Union Board has decided to establish a temporary "Cellar" somewhere in the lower ground floor area. It is hoped that this service will be in operation mon room, two smaller sometime in 3rd term this year.

BOOKSHOP

The Board expressed its view on the question of establishment of a Co-operative Bookshop by resolving that although the Board does not favour the establishment of a branch of the Sydney Co-operative Bookshop, it recommends to University Council that in the event of a decision in favour of such a bookshop, it should be placed in the Union Building subject to a suitable financial arrangement between the University and the Union.

ELECTORAL RULES

The Board noted that two General Meetings called to approve Electoral Regulations necessary for holding Union elections lapsed through lack of quorum. The Board resolved that another General Meeting be held as soon as practicable so that the proposed Rules already adopted by the Board can be put to the general membership,

Regarding the decisions made on the establishment of "Cellar" - see the Chairman's Letter.

REFUND OF UNION FEES

The Board authorised the refund, in principle, of the Union fee and the entrance fee to students who withdraw from their courses during the first fortnight of first term for a legitimate reason. It further empowered the Secretto refund membership fees to those members who withdraw from their academic courses during first term. In this latter case, however, the entrance fee cannot be refunded. Persons withdrawing later than the end of first term shall not have their fees refunded.

STANDING ORDERS

The Board resolved to adopt rules for the conduct of Union General Meetings.
